SNOW SERIES

Although the name suggests otherwise, Snow tables are specially made to shine outdoors in the sun.

Even when you're sitting outside, you want to place your drink down in style. You can do this with the Snow. Although these side tables and coffee tables would also shine indoors, they are specially designed to radiate in the sun outside. The rust-free material is well resistant to a summer shower. The simple design and fresh colour also provide a nice, calm look.

BLOOM LOUNGE CHAIR

Bloom turns plastic waste into something beautiful. The terrazzo or granite like feeling of the material inspired designer Peter van de Water to come up with its sculptural shape. Bloom is available in three colours. The black chair is made of 100% recycled waste from the car industry. The black- galaxy is a mix of 95% various industrial waste, and the white chair is at least 50% post-consumer and about 20% post- industrial waste.

Made in Italy from recycled LDPE by Ecopixel, acknowledged by the Ellen Mc Arthur foundation. Bloom features a concealed rainwater drain, so you'll always have a dry seat. Perfect for outdoors. The Bloom chair is a winner of two Archiproducts Design Awards 2022, category Outdoor & Sustainability. And was longlisted for a Dezeen Design Award 2022.
