

DUTCH BONE

A place to warm your soul

WHO ARE WE?

Dutchbone was born in 2014, responding to the need for cosy home interiors. Especially for the adventurous, people with stories to tell and the wild at heart. People who love hosting dinner parties for friends and family, or who just want to curl up with an inspiring book or classic film. So we believe home should be somewhere cosy – a place to warm your soul. We create that warm atmosphere through well thought-out products, inspired by times gone by. High-quality furniture, lighting and accessories brimming with character. Often handcrafted, with slight imperfections to lend a touch of authenticity. A place to warm your soul.

EXPLORE OUR PREMIUM LEATHER FURNITURE

High-quality waxed leather sofa's and lounge chairs

At Dutchbone we are proud to present our our items crafted from high-quality leather. Leather is a unique and natural material with distinctive characteristics that contributes to both an exclusive look and optimal comfort. Let us take you through the story behind our leather: its origin, treatment, and care.

The origin of our leather

Our leather is sourced in South America and is a by-product of the meat industry. We believe it is important that the leather's origin is traceable and its processing sustainable. To minimize environmental impact, the water used during the tanning process (the treatment of the skin and hides) is recycled.

The leather is treated in Argentina using a method called 'In the Blue'. A method of preservation which is more environmentally friendly than traditional techniques. The leather then undergoes thorough washing in specialized machines, after which it loses its characteristic blue tint. This also explains why white leather is particularly challenging to produce.

DOUGLAS

CARE GUIDE

The treatment and finish

The leather we use is relatively thick and retains natural markings and scars, contributing to its authentic appearance. By embracing these natural imperfections, we reduce waste and use the leather as efficiently as possible.

After initial treatment, the leather is dyed and finished with a top layer of wax, enhancing its beauty while providing protection. During production a fine layer of wax is sprayed over the leather before placing it in a special hot-tub-style tumble dryer, helping the wax bond to the surface. This special treatment creates what we call 'Wax Leather'.

Though initially stiff, the leather becomes more supple with use and warmth, developing a unique, evolving character.

The Maintenance and care

To keep your leather furniture in top condition, proper maintenance is essential. Leather is sensitive to light and discoloration, so avoid exposing your sofa or armchair to direct sunlight for extended periods. We recommend occasionally wiping the leather with a slightly damp cloth to keep it hydrated. Also, it is advisable to apply a thin layer of wax to the furniture twice a year, which can be ordered from the brand "Oranje".

With the right care and attention, your Dutchbone leather furniture will remain a stunning focal point in your interior for many years to come. It will become more beautiful with age and our carefully selected materials and craftsmanship ensure a product that's stylish, durable, and timeless.

CHECK OUT OUR DEALER LOGIN

Have you seen products in this catalogue that you would like to order?
Order all products directly through the Dealer Login (B2B webshop).

Advantages of ordering products in our B2B webshop:

- Available anytime, anywhere and on any device.
- Available in Dutch, English, German and French.
- Extensive product information such as prices, stock level, measurements, colour variants, materials, weight, etc.
- Insight into invoices, current orders and your entire order history.
- Create a personal wishlist.
- Choose your preferred delivery date.
- Download catalogues and easy access to our product images bank.
- Extensive search function! Try for example the term “blue chair”.

If you don't have a login yet or if you want more information,
please contact your account manager.
