SPRING COLLECTION '26

Spring is the season of renewal: of softness, lightness, and a fresh sense of clarity. Get inspired to refresh your interior with the new Spring collection from Zuiver, where familiar silhouettes meet uplifting colours and refined materials. Each piece is crafted to harmonise seamlessly with your current favourites, so new additions enhance and elevate what you already love. From subtle colour shifts to airy textures and sculptural shapes, every detail has been carefully considered to bring a calm, rejuvenating atmosphere into your home.

This Spring collection introduces a bright new layer of inspiration. Picture the Luwte rug adding warmth and softness to your room and the elegant Linea glass table catching the light inside. The Raster series - inspired by Japanese rice paper panels - add structure and depth, whilst outdoors the Sunshine parasol in cheerful yellow brings a vibrant touch to terraces.

Perfectly in tune with the season.

Together, these pieces set the tone for an interior that feels brighter, lighter, and effortlessly refreshed. A home ready to welcome the new season with open arms.

Floss

Where the Floss coffee table is perfect for life's guilty pleasures, the side table is just right for the small joys. A glass of your favourite drink and a good book, what more do you need when you want to relax? Floss comes in various colours and, by the way, loves the company of its family.

- You simply can't resist the silky sheen of this table.
- And what about that raised edge? It's a lovely detail and also handy if you happen to spill something.
- The combination of both versions is brilliant, not only because of the size, but also thanks to the colour options.

The image shows a wooden dining table with a natural or walnut-colored finish. The table is set for four people with white ceramic cups and saucers, and glasses of water. A bowl of fruit, including oranges and apples, sits in the center. A tall, silver, tiered vase with dried flowers is on the left. The table is surrounded by wooden chairs with light-colored fabric seats. The floor is made of light-colored wood in a herringbone pattern. Sunlight filters through the scene, creating shadows on the floor. A semi-transparent circular overlay is in the bottom right corner, containing the product name and description.

Raster

Calm and serenity — that's what the detailed cabinets of the Raster range exude. The name, of course, comes from the wooden slats that form a diamond-shaped pattern on the drawers and doors, creating an intriguing play of light and shadow. The straight legs lift the furniture slightly off the ground, giving it a look reminiscent of Japanese craftsmanship combined with Scandinavian clarity. An essential addition to a tidy Japandi interior that even Marie Kondō would envy.

- Made from MDF and ash veneer
- Available as a sideboard, lowboard and storage cabinet.
- Brings a soothing Japandi atmosphere to your home.
