

# RODIN

## LOUNGE CHAIR

### DESCRIPTION

Would you like to give your interior a sophisticated and slightly retro atmosphere? You can do so with the Dutchbone Rodin. After all, this dining chair, lounge chair and counter stool exude pure quality. The back of the curved wood is finished in a beautiful, deep walnut colour. This contrasts beautifully with the light, woven upholstery of the seat. It's a look reminiscent of design from the 50s and 60s. The slender black metal legs make the chair totally contemporary. Perfect for transforming the living or dining room into a warm place to gather with loved ones - a place to warm your soul.

Available as a dining chair or armchair and counterstool. Upholstered in light, woven fabric and has a wonderfully comfortable seat. With a backrest of curved wood and walnut finish.
